Preliminary data of the general population census of Georgia 2014 - the number of population by municipalities, self-governing cities and regions will be published no later than 30 April 2015.

Item 8. Social Statistics

	Work Description	Scope of Work
1.	Annual figures showing the number of population below the poverty line in 2014	The number of population receiving subsistence assistance, annual data for the national level; Share of the population receiving subsistence assistance in the average annual population (%), annual data for the national level;
2.	Annual figures showing the relative poverty of the population in 2014	The share of population below the 60 percent of the median consumption; the annual data for the country level, by cities and villages; The share of population below the 40 percent of the median consumption; the annual data for the country level, by cities and villages.
3.	Annual figures (incomes and expenditures of households) showing the standard of life in 2014	Household Incomes -Total cash income and transfers per household, per capita, annual data for the national level and by regions, cities and villages; -Total income from hired Labour per household, per capita, annual data for the national level and by regions, cities and villages; -Total income from self-employment per household, per capita, annual data for the national level and by regions, cities and villages;

	<ul style="list-style-type: none"> -Total income from sales of agricultural products per household, per capita, annual data for the national level and by regions, cities and villages; -Total income from property (from renting, deposit interest) per household, per capita, annual data for the national level and by regions, cities and villages; -Total pensions, stipends, assistances per household, per capita, annual data for the national level and by regions, by cities and villages; -Total remittances received per household, per capita, annual data for the national level and by regions, by cities and villages; -Total money received as a gift per household, per capita, annual data for the national level and by regions, by cities and villages; - Total non-cash income per household, per capita, annual data for the national level and by regions, by cities and villages; -Total income per household, per capita, annual data for the national level and by regions, by cities and villages; -Total income received from selling the property per household, per capita, annual data for the national level and by regions, by cities and villages; -Total money borrowed and the savings used per household, per capita, annual data for the national level and by regions, cities and villages; -Total cash per household, per capita, annual data for the national level and by regions, cities and villages; -Total cash and non-cash funds per household, per capita, annual data for the national level and by regions, cities and villages. <p>Household Expenditures</p> <ul style="list-style-type: none"> -Total cash expenditures (according to the 2-digit level of international classification of COICOP) per household, per capita, annual data for the national level and by regions, cities and villages; - Total consumer non-cash expenditures per household, per capita, annual data for the national level and by regions, cities and villages; -Total consumer expenditures per household, per capita, annual data for the
--	---

		<p>national level and by regions, cities and villages;</p> <p>-Total non-consumer cash expenditures per household, per capita, annual data for the national level and by regions, cities and villages;</p> <p>- Total agricultural expenditures per household, per capita, annual data for the national level and by regions, cities and villages;</p> <p>- Total expenditure on transfers per household, per capita, annual data for the national level and by regions, cities and villages;</p> <p>- Total expenditures on saving or lending per household, per capita, annual data for the national level and by regions, cities and villages;</p> <p>-Total expenditures made on purchasing property per household, per capita, annual data for the national level and by regions, cities and villages;</p> <p>- Total cash expenditures per household, per capita, annual data for the national level and by regions, cities and villages;</p> <p>-Total expenditures per household, per capita, annual data for the national level and by regions, cities and villages.</p>
4.	Annual figures showing the economic activity of the population in 2014 (employment and unemployment)	<p>- The number of economically active population (the Labour force), annual data for the national level, by gender, by regions, cities and villages, and by age;</p> <p>-The number of the employees, annual data for the national level, by gender, by regions, cities and villages, and by age;</p> <p>-The number of contract employees;</p> <p>-The number of self-employed, annual data for the national level, by gender, by regions, cities and villages, and by age;</p> <p>- The number of unemployed, annual data for the national level, by gender, by regions, cities and villages, and by age;</p> <p>- The number of economically inactive population (the population outside the labor force) annual data for the national level, by gender, by regions, cities and villages, and by age;</p> <p>-The unemployment level, annual data for the national level, by gender, by regions, cities and villages, and by age;</p> <p>-The level of activity, annual data for the national level, by gender, by</p>

		regions, cities and villages, and by age; -The employment level, annual data for the national level, by gender, by regions, cities and villages, and by age.
5.	Gini coefficients for 2014	-Gini coefficient by cash income; - Gini coefficient by total cash income; -Gini coefficient by cash expenditures; - Gini coefficient by total expenditures; - Gini coefficient by total consumption.
6.	Calculation of the minimum subsistence level (XII Month of 2014, and I, II, III, IV, V, VI, VII, VIII, IX, X, XI Months of 2015)	-The minimum subsistence level of a able-bodied male; - The minimum subsistence level of an average consumer; - The minimum subsistence level of a medium size family; - The minimum subsistence level of a one-member family; - The minimum subsistence level of a two-member family; - The minimum subsistence level of a three-member family; - The minimum subsistence level of a four-member family; - The minimum subsistence level of a five-member family; - The minimum subsistence level of a six and more member family.
7.	Statistical survey – data on labor (average monthly nominal salaries of employees in IV Quarter of 2014, annual of 2014, and I, II, III Quarters of 2015)	Average monthly nominal salary of employees: -Total, at the level of 1,2,3-digit code for the types of economic activities envisaged in the National Classification of Economic Activities of Georgia “NACE 001-2004“, by quarters, and annual; -By forms of ownership at the section level of the types of economic activities envisaged by the National Classification of Economic Activities of Georgia “NACE 001-2004“, by quarters, and annual.
8.	Data of higher educational establishments in 2014/2015 academic year	The number of higher educational establishments by the forms of ownership (public, private), enrollment and the number of students, the number of graduates by programs and gender, and age; the number of professors, annual data for the country level and by regions; enrollment and the number of PhD students, the number of graduates by programs, annual data for the country level.
9.	Data of general educational establishments in	The number of educational establishments carrying out professional

	2014/2015 academic year	programs by the forms of ownership (public, private), form, reception of students, the number and the number of graduates by professional programs by gender and age, the number of teachers of professional programs, annual data for the country level and by regions and municipalities.
10.	Data of professional educational establishments in 2014/2015 academic year	The number of higher educational establishments by the forms of ownership (public, private), type (form); enrollment and the number of students, the number of graduates by programs and gender, and age; the number of professors, the number of graduates by programs, annual data for the country level and by regions.
11.	2014 annual statistical survey of the performance of museums	The number of museums, the number of exponents therein, the number of visitors of the museums by the country and by regions, the annual data;
12.	2014 annual statistical survey of the performance of theaters	the number of theaters, the number of seats therein, the number of performances held, the number of spectators, the data for the country level and by regions, the annual data.
13.	2014 annual data on publishing materials	Circulation of the published books and brochures, circulation of the published magazines, circulation of the published newspapers, annual
14.	2014 annual data on the social security	The number of persons receiving the pensions by the types of pensions, the annual data for the country level, by regions and municipalities; the number of houses for the elderly, disabled adults and disabled children, the capacity of the houses and the actual number of persons placed therein, the number of the personnel working in these houses, the expenses made on taking care of the elderly, the disabled adults and disabled children, the annual data for the country level.
15.	2014 annual data on the health care	The network of health care facilities (the number of hospitals, out-patient clinics, etc), the number of visits to doctors in out-patient clinics, morbidity in the population (adults, children) by main disease groups (in view of the international classification of diseases, ICD-10); morbidity in the population by infectious diseases, morbidity in the population by sexually transmitted diseases, morbidity in the population by TB, cases of HIV and

		AIDS, Ambulance services, abortions, the number of medical personnel by specialties, the annual data for the country level.
16.	Data on the legal system (2014 annual, and I, I–II and I–III quarters of 2015)	The number of crimes recorded by main types of crimes, the number of car accidents by victims and death toll; the number of fires and the number of death toll and traumatized persons as a result of fires, the buildings and constructions destroyed as a result of fires, and fire-related deaths of cattle; Crimes related to trafficking in persons, the number of domestic violence cases, the statistical data on the victims by gender, age, citizenship, the quarterly data, and annual data for the country level; the number of convicts by gender and age, the number of convicts (adults, juveniles) by types of crimes, the number of convicts by the sentences imposed against them, the semiannual, annual data for the country level. The number of prisoners (adults, juveniles) by gender, the annual data for the country level.
17.	Criminal justice statistics (XII of 2014, and I, II, III, IV, V, VI, VII, VIII, IX, X, XI months of 2015)	Monthly Unified Report on Criminal Justice Statistics. Attachment with Tables.
18.	Tourism statistics	<p>Local households tourism survey</p> <p>The distribution of Georgian resident travellers by place of residence; the distribution of Georgian resident travellers by age; the distribution of Georgian resident travellers by sex; number of visits on the territory of Georgia by Georgian resident travellers, duration and purpose of the visit; the distribution of visitors by regions; information sources used; visitor expenditure distribution; the level of satisfaction by visit, quarterly.</p> <p>Foreign visitors survey</p> <p>The distribution of foreign travellers by country of residence; the distribution of foreign travellers by age; the distribution of foreign travellers by sex; sequence of visit to Georgia, duration and purpose of the visit; the distribution of visitor flows by regions; information sources used; visitor expenditure distribution; the level of satisfaction by visit in Georgia,</p>

		quarterly.
--	--	------------

* –The data at the regional level will be issued only if the data are representative.

** –Average monthly nominal salary of the employees at the level of 2 and 3-digit code for the types of economic activities envisaged in the National Classification of Economic Activities of Georgia “NACE 001-2004” will be issued only if it is representative.

Item 9. Regional statistics

	Work Description	Scope of Work
1.	System of statistical indicators in the regional context	<p>Environment protection: The forest fund of Georgia; volume of lumber obtained as a result of cutting wood; volume of water taken, used and then discharged into the surface reservoirs; volume of harmful substances formed in stationary sources, depleted and emitted in the air, annual.</p> <p>Population: Number of population by 1 January, number of births, number of deaths by gender and age, number of deaths by basic causes of deaths, deaths of the children under one year age, natural increase, number of marriages and divorces, annual</p> <p>Human resources: Number of economically active population (labour force), employed, hired, self-employed, unemployed and economically inactive population; Level of unemployment, employment and activity, annual</p> <p>Business sector: Key indicators reflecting activity of the business sector (number of enterprises, turnover, output of products, number of employed, etc.), by the organizational and legal forms, size of enterprise, forms of ownership, types of economic activity, quarterly and annual</p> <p>Industry: Key indicators of industry field (number of enterprises, turnover, output of products in price and natural forms, number of employed, etc.), annual</p> <p>Agriculture: - Sown and harvested areas of annual plants, production and average yield, production of perennial crops, number of livestock and poultry, production of cattle-breeding products, annual.</p> <p>Construction, investments and privatization: Volume of performed construction works, investments in the primary capital, Permits issued for construction and reconstruction, quarterly and annual</p>

		<p>Services: Key indicators of the fields of trade, transport and communication, hotels and restaurants (number of enterprises, turnover, output of products, number of employed, etc.), annual</p> <p>Living standards: Structure of incomes and expenditures of households, annual</p> <p>Education: Number of general educational establishments (schools), number of students, number of higher educational establishments in the region, annual</p> <p>Culture: Number of cultural organizations and establishments in the region by types (museums, theaters), as well as types of services rendered (number of visitors, number of exhibitions and excursions, number of spectators and performances held), annual</p> <p>Health care and social security: Number of hospitals, outpatient clinics and polyclinics, number of inpatient beds, number of medical personnel, number of visits to doctor in outpatient clinics and polyclinics, number of persons receiving state pensions, number of helpless families and families receiving subsistence assistance registered in the unified base, annual.</p> <p>Infrastructure: Percentage of households provided by electricity and gas, the percentage distribution of households by basic sources of water, annual. Length of the roads, including: a) of international significance (km); b) of national significance (km), annual. Number of transport organizations, quarterly and annual. Internet connectivity, annual.</p> <p>Gross domestic product: gross added values by basic types of economic activity, annual.</p>
