## Instruction

The goal of the survey on the structure of intermediate consumption is to identify cost structure of goods and services consumed in the production process.

In the questionnaire, goods and services are grouped in accordance with the European Statistical Classification of Products (CPA 2008).

Please specify the current expenses spent during 2022 by the following groups:

- Costs of raw materials and other material inputs (costs include value of consumed raw materials and other material inputs without VAT and excise tax);
- Costs of industrial and non-industrial services;
- Business trip and representation expenses.

Questionnaire does not include extraordinary, interest and non-operational costs, depreciation of fixed assets and other capital expenses which are treated in bookkeeping as investments in fixed assets. The questionnaire does not include expenses (subsidy, grant, transfer and etc.) related to Nonentrepreneurial Legal Entity and/or Legal Entity of Public Law controlled by your organization. Only the costs of goods and services consumed by your organization during 2022 should be indicated in the questionnaire.

Costs of raw materials and other material inputs related to repair and construction activity should be indicated in the first group. Expenditures on services performed by subcontractor's (including the costs of raw materials and other material inputs, in case theses expenditures include costs of raw materials and other material inputs) will be indicated in the second group. Also, construction preparation works and constructions and construction works for civil engineering are separated from each other. Construction preparation works includes demolition and site preparation works. Construction works for civil engineering includes electrical installation works, plumbing, heat and airconditioning installation works.

Capital expenditures does not belong to intermediate consumption.
Costs of intellectual property (second group) include expenditures spent on licensing services for the right to use intellectual property and similar products. Capital expenditures related to intangible assets does not belong to intermediate consumption.

Expenditures on scientific research and experimental treatment services should be indicated only by organizations engaged in these activities.

Please fill in the total expenses on the stationery items as well as the expenses according to provided categories.
