6.2. Data sharing
-

7. Confidentiality
7.1. Confidentiality – policy
<p>1. The Law of Georgia on Official Statistics:</p> <ul style="list-style-type: none"> • According to the article 5 of the law Statistical confidentiality and exclusive use for statistical purposes – individual data collected or received by the producer of official statistics, relating to natural or legal persons, must be strictly confidential and used only for statistical purposes. • According to the article 34 (Observing Confidentiality of Statistical Data) of the law 1. Data collected, processed, and stored to produce official statistics are confidential if they enable the direct or indirect identification of a statistical unit. In addition, aggregated data are subject to statistical confidentiality: a) Aggregates composed of 1 to 3 units, when the unit is a natural or legal person if one of these units could be identified indirectly, thereby disclosing individual data about this unit. Aggregates composed of more than 3 units may be declared confidential by the Executive Director if required to ensure statistical confidentiality; b) Information declares as a state secret on the basis of the „Law of Georgia on State Secrets“. 2. Confidential data shall be used exclusively for the purposes of producing statistics in accordance with this law. 3. Statistical data about the administrative body cannot be considered confidential information, except for the information determined by the Law of Georgia „On State Secrets“. 4. Individual data obtained from publicly available sources, which are defined as public information in accordance with the legislation of Georgia, shall not be considered confidential information. 5. Confidential (individual) data may be published if there is written consent from the statistical unit regarding the publication of such data. 6. It is not allowed to disseminate and distribute confidential data or use it for non-statistical purposes. • According to the article 38 (Confidentiality commitments) of the law the confidential statistical data collected and processed for statistical purposes shall not be used or disseminated either for personal, academic, research

or any other activities, by the employees of the producers of Official Statistics.

<https://pc-axis.geostat.ge/PXweb/pxweb/en/Database/>

<https://gender.geostat.ge/gender/index.php?action=Social%20Protection>

<https://disability.geostat.ge/shshm/social.php?lang=en#x>

10.4. Micro-data access

-

10.5. Other

-

10.6. Documentation on methodology

-

10.7. Quality documentation

-

11. Quality management

11.1. Quality assurance

To ensure the quality of the statistical processes and products Geostat follows Chapter 10 – Quality of official statistics – of the Law of Georgia on Official Statistics, as well as the European Statistics Code of Practice, the UN Fundamental Principles of Official Statistics and Quality Assurance Framework of the European Statistical System (ESS QAF).

11.2. Quality assessment
Methodology and Quality Management Division of Geostat, along with the sectoral departments, is responsible for the quality of the produced statistical products and processes. The Division carries out quality audit, self-assessment of statistical processes and assesses the risks for the quality of statistical processes and products. Geostat has developed policy documents, guidelines and standard routine descriptions. These documents ensure the standardization of statistical processes and products and the establishment of a unified quality assurance system. Quality policy is available on the following link: https://www.geostat.ge/media/44380/QP_Geostat_EN.pdf
12. Relevance
12.1. User needs
Users of the statistical information are state authorities, international organisations (Eurostat, United Nations and UN's regional and specialized authorities, World Bank, etc.), business, media, researchers, students and private persons.
12.2. User satisfaction
In 2023 user satisfaction survey was conducted, the target of the survey was to analyze the assessment of quality of statistical data by users and explore ways to improve user services. The survey report is available on the website of Geostat (in Georgian): https://www.geostat.ge/en/page/customer-service
12.3. Completeness
Published data are available at the municipality regional level and comparable to international standards.
13. Accuracy and reliability
13.1. Overall accuracy
-
13.2. Sampling error
-
13.3. Non-sampling error
-
14. Timeliness and punctuality
14.1. Timeliness
Annual data are published in February of the following reporting year.
14.2. Punctuality
The data is published according to the date indicated at Statistical Work Programme. Violation of publication dates never occurred.
15. Coherence and comparability
15.1. Comparability – geographical
Data are comparable.
15.2. Comparability – over time
Data are comparable.
15.3. Coherence – cross domain
-
15.4. Coherence – internal
-
16. Cost and burden
The data are processed based on administrative sources and does not require additional costs.
17. Data revision
17.1. Data revision – policy
Statistical data revision policy is available on the website of Geostat:

https://www.geostat.ge/media/59824/Data-Revision-Policy-and-Error_Correction-at-Geostat_Eng.pdf

17.2. Data revision – practice

The statistical data are not revised. Unplanned revisions (for data specification) were not carried out in practice.

18. Statistical processing

18.1. Source data

Geostat receives the following data from Ministry of Internally Displaced Persons from the Occupied Territories, Labor, Health and Social Affairs of Georgia.

18.2. Frequency of data collection

Annually.

18.3. Data collection

-

18.4. Data validation

-

18.5. Data compilation

-

18.6. Adjustment

-

19. Comment
