

**Statistical Survey of Producer Prices for Telecommunication Services**

**Questionnaire N 06.2.7.1 (annual)**

CPA code	Telecommunication service			
Type of telecommunication service	Measurement unit	Share (%)	Base price (GEL)	Comment

The table contains the following fields:

- ✓ **CPA code** – code of the sampled service according to the Statistical Classification of Products by Activity;
- ✓ **Telecommunication service** – name of the telecommunication and related service;
- ✓ **Type of telecommunication service** – the top four types of telecommunication services (in terms of shares in the total revenue received by the enterprise from the provision of the telecommunication services);
- ✓ **Measurement unit** – measurement unit of the sampled type of telecommunication service;
- ✓ **Share (%)** - share of the type of telecommunication service in total revenue of the enterprise received from the provision of telecommunication services;
- ✓ **Base price** – price for the type of telecommunication service in December (in case of price absence in December, the last price) of previous year in GEL;
- ✓ **Comment** – any other relevant information.
