

Statistical Survey of Prices for Export Products
Questionnaire N 06.2.2.4 (monthly)

CPA code	Product name					
Product type	Measurement unit	Export country	Price of the export product (GEL)			Comment
			Base month	Previous month	Current month	

- ✓ **CPA code** – code of the sampled product according to the Statistical Classification of Products by Activity;
- ✓ **Product name** - name of the sampled product according to the Statistical Classification of Products by Activity;
- ✓ **Product type** - names of the top four types of the sampled products exported;
- ✓ **Measurement unit** – measurement unit of each product type (kilogram, unit, liter, etc.);
- ✓ **Export country** - name of the country, where the product type was exported to;
- ✓ **Base month** – average export price (in GEL) for the product type in December of the previous year;
- ✓ **Previous month**- average export price (in GEL) for the product type in the month preceding the reporting period;
- ✓ **Current month**- average export price (in GEL) for the product during the reporting period. The export price is free-on-board (FOB) price set by producer during the specified period. The FOB price comprises of the price at the factory gate, net taxes on products (taxes – subsidies), transportation and other expenses that are incurred in bringing the product to the point of leaving the economic territory of the manufacturer country.
- ✓ **Comment** – explanation of a price change or any relevant information.
