

**Statistical Survey of Prices for Export Products**  
**Questionnaire N 06.2.2.1 (annual)**

CPA code	Product name				
Product type	Measurement unit	Export country	Share (%)	Base price (GEL)	Comment

- ✓ **CPA code** – code of the sampled product according to the Statistical Classification of Products by Activity;
- ✓ **Product name** - name of the sampled product according to the Statistical Classification of Products by Activity;
- ✓ **Product type** - names of the top four types of the sampled product exported;
- ✓ **Measurement unit** – measurement unit of each export product type (kilogram, unit, liter, etc.);
- ✓ **Export country** - name of the country, where the product type was exported to;
- ✓ **Share (%)** – percentage shares of each product type in the total export value of the sampled product;
- ✓ **Base price** – export price in GEL for the product type in December (in case of price absence in December, the last price) of the previous year; The export price is free-on-board (FOB) price set by producer during the specified period. The FOB price comprises of the price at the factory gate, net taxes on products (taxes – subsidies), transportation and other expenses that are incurred in bringing the product to the point of leaving the economic territory of the manufacturer country.
- ✓ **Comment** – other relevant information.
