The Division carries out quality audit, self-assessment of statistical processes and assesses the risks for the quality of statistical processes and products. Geostat has developed policy documents, guidelines and standard routine descriptions. These documents ensure the standardization of statistical processes and products and the establishment of a unified quality assurance system. Quality policy is available on the following link: https://www.geostat.ge/media/44380/QP_Geostat_EN.pdf
12. Relevance
12.1. User needs
The main stakeholders of the data are: central and local governmental institutions, scientific institutions, students, international organizations, NGOs, media, citizens.
12.2. User satisfaction
In 2023 user satisfaction survey was conducted, the target of the survey was to analyze the assessment of quality of statistical data by users and explore ways to improve user services. The survey report is available on the website of Geostat (in Georgian): https://www.geostat.ge/ka/page/customer-service
12.3. Completeness
Data on theatres are available at regional level.
13. Accuracy and reliability
13.1. Overall accuracy

Data collection is done exhaustively. No specific quantitative measurements related to overall accuracy are performed. Preliminary estimates for incomplete or missing data are done. Verification of incomplete or distorted information is performed.
13.2. Sampling error
-
13.3. Non-sampling error
-

14. Timeliness and punctuality
14.1. Timeliness
The data are published in June of the following reporting year.
14.2. Punctuality
Data are disseminated in accordance to calendar of statistical works and there are no outstanding cases has been detected.

15. Coherence and comparability
15.1. Comparability – geographical
Data are collected and processed using the same methodology and definitions for different regions of the country and self-governing units (self-governing cities and municipalities).
15.2. Comparability – over time
Data are collected and processed using the same methodology and definitions throughout the period under consideration.
15.3. Coherence – cross domain
-
15.4. Coherence – internal
-

16. Cost and burden
Receiving and processing data is done only by the basic staff within the Geostat budget.

17. Data revision
17.1. Data revision – policy
Statistical data revision policy is available on the website of Geostat: https://www.geostat.ge/media/59824/Data-Revision-Policy-and-Error-Correction-at-Geostat_Eng.pdf
17.2. Data revision – practice
The statistical data are not revised. Unplanned revisions (for data specification) were not carried out in practice.

18. Statistical processing
18.1. Source data
Electronic questionnaire.
18.2. Frequency of data collection
Annual.
18.3. Data collection
Data are collected from theatres via electronic questionnaires.
18.4. Data validation
Before publishing the data, data cleaning and logical control are performed. The information obtained from different administrative sources is also interconnected.
18.5. Data compilation
-
18.6. Adjustment
-

19. Comment
