

NATIONAL STATISTICS OFFICE OF GEORGIA

GEORGIAN RAILWAY

2026, II QUARTER

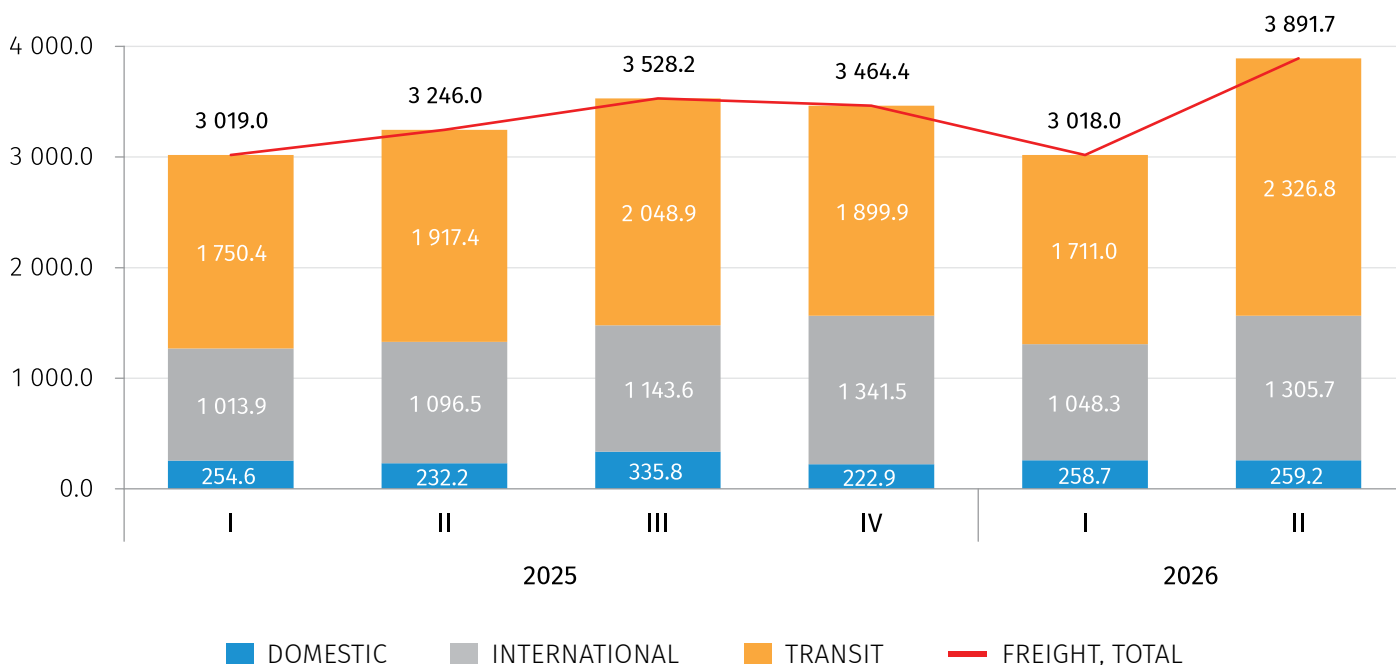

19.08.2026

**MAIN INDICATORS OF RAILWAY
(2026, II QUARTER)**

In the II quarter of 2026, rail transported 3.9 million tons of freight, which is 19.9 percent more than the respective figure of the previous year. 6.7 percent of the total freight was transported domestically, 33.5 percent was transported internationally (excluding transit), and 59.8 percent was transit.

**RAILWAY TRANSPORTED FREIGHTS BY TYPE OF TRANSPORT,
(THOUSAND TONS)**

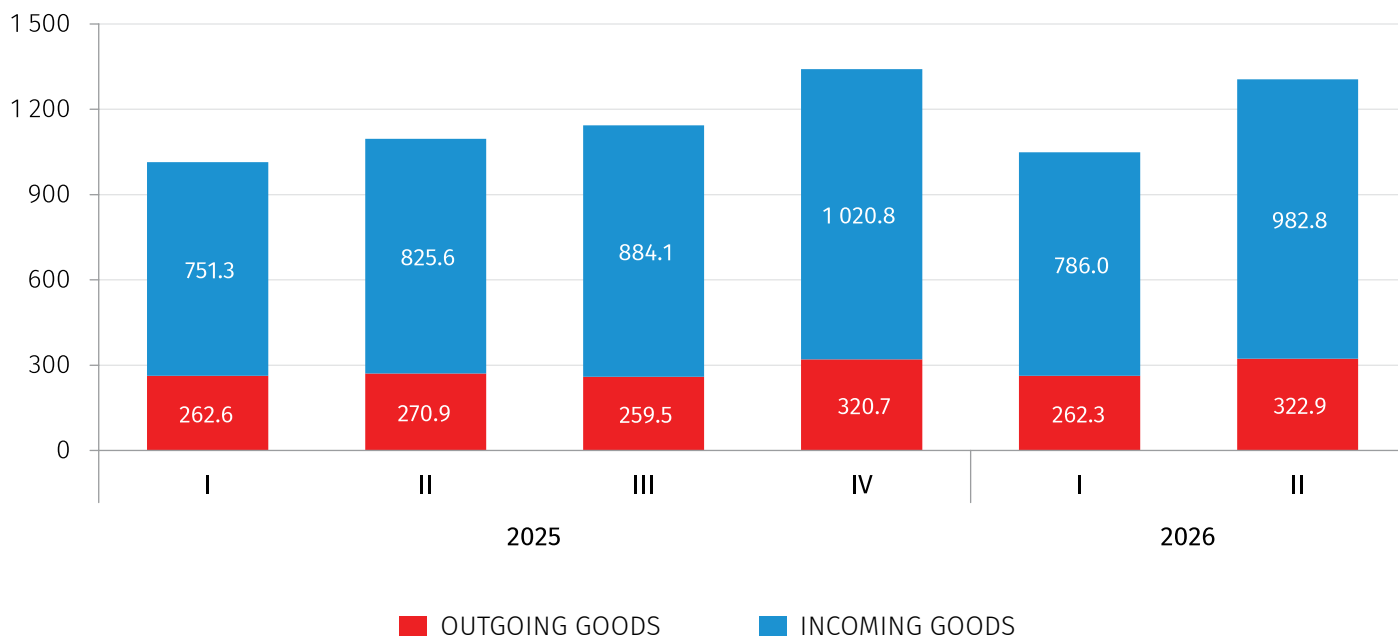

In the II quarter of 2026, the share of incoming freight represented 75.3 percent of the railway-transported freights, while the share of outgoing freight was 24.7 percent.

The chart below shows the structure of internationally transported freights by quarters:

NATIONAL STATISTICS OFFICE OF GEORGIA

19.08.2026

STRUCTURE OF INTERNATIONAL TRANSPORTED GOODS, (THOUSAND TONS)

In the II quarter of 2026, the sender country of 38.0 percent of total incoming rail freight was Russian Federation, 22.7 percent was sent by Azerbaijan. The share of other countries sending cargo was less than ten percent each (39.3 percent combined).

In the II quarter of 2026, Armenia was the final destination for 17.4 percent of total outgoing freight, for 10.1 percent it was Russian Federation, for 7.1 percent – Kazakhstan. The share of other individual receiving countries was relatively small (65.4 percent combined).

In the II quarter of 2026, the breakdown of the total transit freight¹ by the final destination country was as follows: the Turkey – 8.2 percent, the Netherlands – 8.1 percent, China – 5.5 percent, Romania – 2.0 percent, Italy – 1.8 percent, Ukraine – 1.2 percent, and elsewhere was for the rest. In the same period, Brazil was the sender country of 6.6 percent of the total transit freight, Turkey – 2.5 percent and other countries sent the rest.

In the reporting period, 32.7 percent of the total freight were coke and refined petroleum products, 22.2 percent were chemicals, chemical products, and man-made fibers; rubber and plastic products, and 13.7 percent were food products, beverages and tobacco.

¹Due to the data confidentiality purposes, the indicators of the volume of shipments carried out from/to particular countries is not given.

19.08.2026

The distribution by type of goods was different in case of freights transported domestically in the II quarter of 2026, as the share of metal ores and other mining and quarrying products equaled 54.5 percent of total, and the share of coke and refined petroleum products amounted to 16.6 percent; while the share of transport equipment amounted to 16.0 percent.

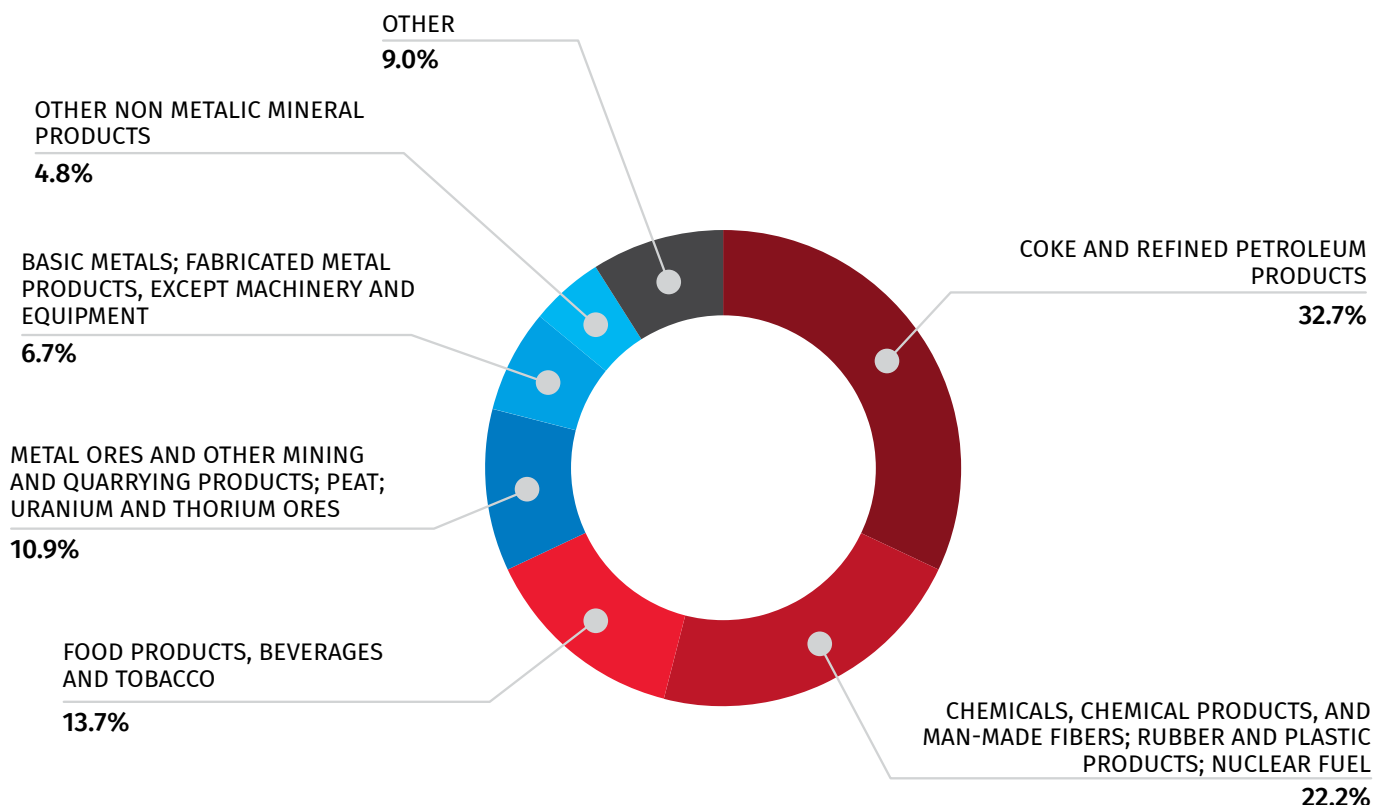

As for the freights transported internationally, in the reporting period, incoming goods were mainly coke and refined petroleum products (38.6 percent), other nonmetallic mineral products (13.2 percent), metal ores and other mining and quarrying products (12.5 percent), coal and lignite; crude petroleum and natural gas (12.4 percent), basic metals (7.9 percent), food products, beverages and tobacco (6.8 percent), chemicals, chemical products, and man-made fibers (2.6 percent), wood and products of wood and cork (2.1 percent), products of agriculture, hunting, and forestry (1.9 percent), and machinery and equipment (1.1 percent); while outgoing goods were mainly chemicals, chemical products, and man-made fibers (34.7 percent), food products, beverages and tobacco (27.3 percent), basic metals (11.3 percent) and metal ores and other mining and quarrying products (10.8 percent).

In the II quarter of 2026, three type of goods, namely coke and refined petroleum products (36.2 percent), chemicals, chemical products, and man-made fibers (31.1 percent), and food products, beverages and tobacco (16.3 percent) constituted for 83.6 percent of the total volume of transit freight.

The chart below shows the structure of rail-transported goods in Georgia by type in the II quarter of 2026:

19.08.2026

**STRUCTURE OF RAILWAY-TRANSPORTED FREIGHTS
BY TYPE OF GOODS**

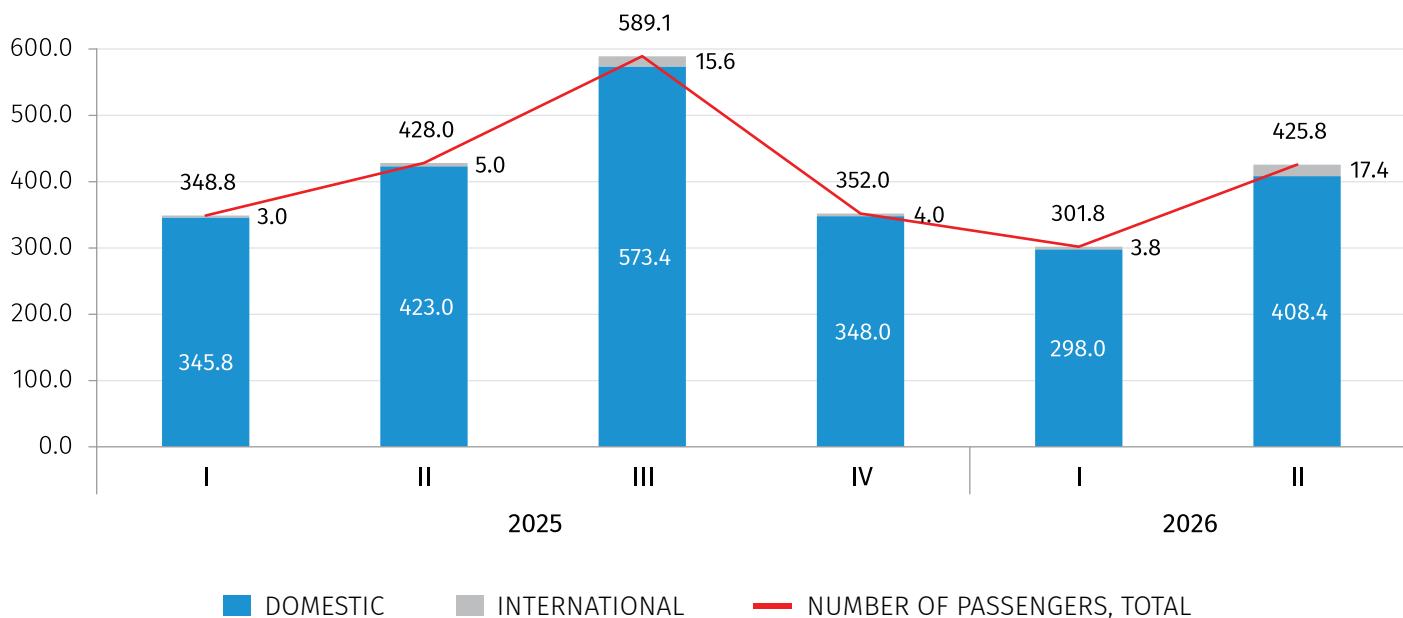

In the II quarter of 2026, the number of passengers transported by the Georgian Railway decreased by 0.5 percent compared to the corresponding period of the previous year and amounted to 425.8 thousand persons. At the same time, passenger turnover decreased by 2.3 percent and amounted to 91.7 million passenger-kilometer.

In the II quarter of 2026, the number of passengers transported within the country amounted to 408.4 thousand persons, which represents 95.9 percent of the total number of passengers carried and is 3.4 percent less than the same figure of 2025. At the same time, the number of passengers transported internationally amounted to 17.4 thousand, which is approximately 3.5 times more than the corresponding figure in the previous year. For internationally transported passengers, the country of embarkation was Azerbaijan for 33.4 percent and Armenia for 21.4 percent, while the country of disembarkation was Azerbaijan for 33.7 percent and Armenia for 11.5 percent.
