The entire territory of Georgia, besides of occupied regions.
3.8. Time coverage
Data is available from 2006.
3.9. Base period
-

4. Unit of measure
Quantity, GEL.

5. Reference period
Year.

6. Institutional mandate
6.1. Legal acts and other agreements
The Law of Georgia on Official Statistics; https://www.geostat.ge/media/78228/The-Law-of-Georgia-on-Official-Statistics--20.04.2026.pdf Statistical Work Programme (annual); https://www.geostat.ge/en/modules/categories/307/statistical-work-programme Charter of the National Statistics Office of Georgia. https://www.geostat.ge/media/78641/საქსტატის-დებულება.-04.05.2026---ENG.PDF
6.2. Data sharing
-

7. Confidentiality
7.1. Confidentiality – policy
- The Law of Georgia on Official Statistics: - According to the article 5 of the law Statistical confidentiality and exclusive use for statistical purposes – individual data collected or received by the producer of official statistics, relating to natural or legal persons, must be strictly confidential and used only for statistical purposes. - According to the article 34 (Observing Confidentiality of Statistical Data) of the law 1. Data collected, processed, and stored to produce official statistics are confidential if they enable the direct or indirect identification of a statistical unit. In addition, aggregated data are subject to statistical confidentiality: a) Aggregates composed of 1 to 3 units, when the unit is a natural or legal person if one of these units could be identified indirectly, thereby disclosing individual data about this unit. Aggregates composed of more than 3 units may be declared confidential by the Executive Director if required to ensure statistical confidentiality; b) Information declares as a state secret on the basis of the „Law of Georgia on State Secrets“. 2. Confidential data shall be used exclusively for the purposes of producing statistics in accordance with this law. 3. Statistical data about the administrative body cannot be considered confidential information, except for the information determined by the Law of Georgia „On State Secrets“. 4. Individual data obtained from publicly available sources, which are defined as public information in accordance with the legislation of Georgia, shall not be considered confidential information. 5. Confidential (individual) data may be published if there is written consent from the statistical unit regarding the publication of such data. 6. It is not allowed to disseminate and distribute confidential data or use it for non-statistical purposes. - According to the article 38 (Confidentiality commitments) of the law the confidential statistical data collected and processed for statistical purposes shall not be used or disseminated either for personal, academic, research or any other activities, by the employees of the producers of Official Statistics. https://www.geostat.ge/media/78228/The-Law-of-Georgia-on-Official-Statistics--20.04.2026.pdf - Data Confidentiality Policy at Geostat https://www.geostat.ge/media/20860/Data-Confidentiality-Policy-at-Geostat_En.pdf - Procedure for providing access to confidential data for research purposes https://www.geostat.ge/media/61533/Rule-on-Access-to-Confidential-Data-for-Scientific-and-Research-Purposes....pdf

4. The Law of Georgia on Personal Data Protection https://matsne.gov.ge/en/document/view/1561437?publication=9
7.2. Confidentiality – data treatment
- Confidentiality guidelines. - Written undertakings by an employee of Geostat on ensuring confidentiality of gained/collected data as a result of official duties.
8. Release policy
8.1. Release calendar
Data dissemination dates are defined by the calendar developed on the basis of the Statistical Work Programme, which is published on the website of Geostat and is publicly available.
8.2. Release calendar access
https://www.geostat.ge/en/calendar
8.3. User access
All users have the equal access to the statistical data simultaneously.
9. Frequency of dissemination
Annual.
10. Accessibility and clarity
10.1. News release
Press release is provided as annex on the survey results: https://www.geostat.ge/en/news?year=&month=&category=19
10.2. Publications
Statistical Yearbook of Georgia: https://www.geostat.ge/en/single-categories/95/statistical-yearbook
10.3. On-line database
-
10.4. Micro-data access
Procedure for providing access to confidential data for research purposes is available on the Geostat website: https://www.geostat.ge/media/61533/Rule-on-Access-to-Confidential-Data-for-Scientific-and-Research-Purposes....pdf
10.5. Other
According to the Law of Georgia on Official Statistics statistical data is public and upon an electronic form or written request, Geostat ensures delivery of the statistical data for all users.
10.6. Documentation on methodology
-
10.7. Quality documentation
-
11. Quality management
11.1. Quality assurance
To ensure the quality of the statistical processes and products Geostat follows Chapter 10 – Quality of official statistics – of the Law of Georgia on Official Statistics, as well as the European Statistics Code of Practice, the UN Fundamental Principles of Official Statistics and Quality Assurance Framework of the European Statistical System (ESS QAF).
11.2. Quality assessment
Methodology and Quality Management Division of Geostat, along with the sectoral departments, is responsible for the quality of the produced statistical products and processes. The Division carries out quality audit, self-assessment of statistical processes and assesses the risks for the quality of statistical processes and products. Geostat has developed policy documents, guidelines and standard routine descriptions. These documents ensure the standardization of statistical processes and products and the establishment of a unified quality assurance system. Quality policy is available on the following link: https://www.geostat.ge/media/44380/QP_Geostat_EN.pdf

12. Relevance
12.1. User needs
The main stakeholders are: business sector representatives, researchers and students, international organizations, governmental institutions, media outlets, etc. They need these data to carry out different types of statistical analysis, to plan a marketing strategy or to evaluate and study the economic situation.
12.2. User satisfaction
In 2023 user satisfaction survey was conducted, the target of the survey was to analyze the assessment of quality of statistical data by users and explore ways to improve user services. The survey report is available on the website of Geostat: https://www.geostat.ge/en/page/customer-service
12.3. Completeness
The data is relevant to an international standard.

13. Accuracy and reliability
13.1. Overall accuracy
The processed data are compared with the data of the previous year. In some cases, during the data processing the information is verified with administrative sources and representatives of the enterprises.
13.2. Sampling error
The survey is conducted without sampling (full coverage).
13.3. Non-sampling error
Comparison of data with administrative sources is aimed to minimize non-sampling errors.

14. Timeliness and punctuality
14.1. Timeliness
The data are published in the end of August of the following year after the end of the reporting period.
14.2. Punctuality
The data is published according to the date specified in the statistical work program. There has not been any violation of publication dates.

15. Coherence and comparability
15.1. Comparability – geographical
The methodology used in scope of the survey is comparable on regional and international level.
15.2. Comparability – over time
The data is comparable over time.
15.3. Coherence – cross domain
The data is coherent.
15.4. Coherence – internal
The data is coherent.

16. Cost and burden
• Number of interviewers varies over time and in 2025 there are 126 contracted staff; • Database is cleaned by 5 permanent staff members of division.

17. Data revision
17.1. Data revision – policy
Statistical data revision policy is available on the website of Geostat: https://www.geostat.ge/media/59824/Data-Revision-Policy-and-Error_Correction-at-Geostat_Eng.pdf
17.2. Data revision – practice
There is no data planned revision. Unplanned revision (in order to specify the data) has not taken place in practice.

18. Statistical processing

18.1. Source data
The completed questionnaire of the survey (online questionnaire).
18.2. Frequency of data collection
Annual.
18.3. Data collection
Data are collected with online questionnaires filled by the enterprise representatives themselves. The interviewer is obliged to verify the electronic questionnaire filled in by enterprises and if the respondent submits another form of data (print version, etc.) – ensure that the corresponding electronic questionnaires are completed correctly.
18.4. Data validation
First of all, the data is checked by the program, based on arithmetic controls incorporated in online questionnaire. Secondary data control is carried out by both the field staff (interviewers) and Tourism Statistics Division staff. The process involves both arithmetic and logical control. With the help of the controls provided in MS Access, inaccuracies in questionnaires are detected and corrected by Tourism Statistics Division staff.
18.5. Data compilation
All the data of individual enterprises are aggregated by software.
18.6. Adjustment
