MAIN INDICATORS OF NON-PROFIT INSTITUTIONS, 2025

(COMPARISONS ARE MADE IN ACTUAL PRICES)

Non-profit institutions are legal entities or organizations which produce goods and services and are not focused to receive profits or financial gains.

Most of goods and services produced by non-profit institutions are sold free of charge or in economically non-significant prices. These organizations are mostly self-financed, receive donations or membership fees. Financial and non-financial assets can be also used to generate income for non-profit institutions and they are allowed to pursue auxiliary economic activities.

According to the declared data of 2025, the turnover from auxiliary activities of non-profit institutions amounted to 280.1 million GEL, 0.4 percent less compared to 2024.

CHART №1
